### ORDER BUCKWHEAT COAL.

Fuel Administrator Jones Issues Another Warning.

H. J. M. Jones has sent the following letter to the coal dealers and local fuel committee showing that the time has been reached when the people of the state must prepare to use buckwheat coal.

Several towns in Vermont are preparing for winter by securing No. 1 buckwheat coal. There is at present an embargo on this size of coal for industrial purposes, on account of the large demand for domestic use. I want to caution you again, that unless your community takes advantage at once of the opportunity of securing a quantity of this coal, you will be in a dangerous position this winter. It is impossible to get more coal of domestic sizes than your allotment, but as No. 1 buckwheat is not chargeable against this allotment you can procure as much of it as you desire.

Don't wait any longer, but see that everyone using a furnace purchases a percentage of No. 1 buckwheat. If the embargo is lifted on its use for industrial purposes, it will be difficult to secure it.

I have personally experimented in the use of this coal in my home and I can use to advantage at least 30 per cent of it in my furnace with egg or stove sizes. Directions for using the coal will be sent to you and if followed will insure satisfactory results. We have received from different parts of the state information that it is used with great success in stoves and ranges as well as furnaces and some of this coal should be in every home in Vermont.

You can purchase it from E. S. Adair, Co., Burlington, Vt., or through this office. Order now and carry your community over the top this winter.

Please remember that if you are short of coal any time this winter and seek our assistance that our first question to you will be "Have you been using No. 1 buckwheat and to what extent?" If you have failed to secure it, you will make it that much more difficult for us to assist you.

The local committee or dealer should canvass your community and secure orders. Do it now—do not wait until it is too late. On this action will depend the comfort of your people this winter.

The ceremony was performed by Rev. George K. Fraser, pastor of the Presbyterian church, of which the bride was a faithful worker.

The happy couple were attended by Mr. and Mrs. James F. Parkman of Rome, Mrs. Parkman being a sister of the bride. There were only the immediate members of the family present and Mr. and Mrs. Rhodes left late in the afternoon on a bridal trip, their destination being unknown.
